Q58 FIRE: Emergency Preparedness The Emergency Preparedness Program assures safety of the community in the event of major disasters such as floods, storms, seismic events, and tornadoes. This program manages the City's **Emergency Readiness and Response** Plan, interacts with the state's **Region IV Homeland Security** Council, participates in the County's **Local Emergency Planning** Committee, and coordinates emergency exercises in concert with area-wide public safety agencies and Cowlitz County Department of **Emergency Management. How** important is this service?

Q66 General Question. Do you have any other information you would like to share with the Council?

Answered: 71 Skipped: 117

#	Responses	Date
1	I would like the council to study offering a streets levy so that the pavement does not deteriorate to the point that it becomes more expensive to fix later down the line. In the levy I would like to see funding provided to subsidize Local Improvement Districts for neighborhoods that would like to improve their streets, sidewalks, alleys or drainage. I would also like to see funding provided for a very minimal, basic network of bicycle lanes, paths and shared streets so that people reliant on bicycles for transportation have at least one safe route to use.	2/19/2013 9:41 AM
2	Yes Please quit with the wasting of money on stupid statues in our downtown area. We already have a great RA Long one that represents the wonderful history of our city. All the money that was wasted in our circle that worked great and is now a mess of a round about. A walking path in the higlands - what a waste. Please don't take away the parks funding. Longview needs their history and beautiful lake area. With the shortage of money why paint the city buses.	2/19/2013 9:12 AM
3	There needs to be a protocol established for exactly what entity responds to emergency/911 contacts. The injured party/family should not be required to pay for every emergency response service that decides to show up at an accident scene. A personal experience last summer resulting from a 911 call requesting an ambulance (and ONLY an ambulance) has left this family with separate invoices for an ambulance transport AS WELL AS fire emergency response, which was neither requested nor needed. If every emergency response entity monitoring emergency calls wants to show up, fine, but only ONE emergency response should be allowed to bill - the one requested by 911 contact. Why is this practice condoned and/or accepted? And why should the injured person(s) then bear the responsibility of other costs incurred from "accident-crashing" emergency response vehicles that just decide to show up, necessitating disputing phantom additional costs while still coping with physical and emotional recovery? Put a stop to this practice! Put some regulatory protocols in place!	2/18/2013 12:18 PM
4	The free downtown parking for people that work there has been greatly appreciated since the change I have noticed the usage has increased	2/15/2013 9:30 PM
5	Suggest pay reductions to all City Employees, as well as reductions to pension plans. Individual in the private sector are not paid nearly the same wadge for working twice as many hours. We are sick and tired of seeing City employees wasting our tax dollars. Go back to 5 days a week 8 hour days.	2/15/2013 4:27 PM
6	Government at all levels should and needs to control expenses reduce all spending and stop increasing taxes on the citizens!	2/15/2013 1:38 PM
7	get rid of 80% of traffic lights. there are way to many when 4 way stops would be sufficient. also you might want to set up a vocational training program for young people.	2/15/2013 9:51 AM
8	Yes I do. I think the good old boy and one good old girl club should step down from the bench. A special election should be held to select their replacements.	2/14/2013 3:10 PM
9	I believe we should try to maintain the current level of all services and increase revenues to do it.	2/14/2013 9:05 AM
10	SIDEWALKS ARE IN TERRIBLE SHAPE, CITY IS SLOWWW TO RESPOND. BETTER POLICE PATROLING FOR TRANSIENTS, DRUGS, VANDALISM. LONGVIEW IS ON A STEEP DOWNHILL SLIDE FOR SAFETY OF ALL KINDS. TOO MUCH GOING ON BEHIND CLOSED DOORS SUCH AS AT THE PUD. NOT SAFE TO WALK AT NIGHT ANYWHERE IN LONGVIEW. WESTSIDE IS GOING DOWNHILL AND ELSEWHERE	2/13/2013 5:45 PM
11	This is a good survey. How are you making sure you get a lot of responses?	2/13/2013 5:07 PM
12	about the land mass mention at he mint farm area hearing	2/13/2013 12:22 PM
13	Can we combine services with other agencies such as C2FR/Library/Parks to decrease overhead expenses. It was hard to say things were not important because most of these services are essential. I rated them lower not because I don't value the service but maybe others are more important. Thanks for creating this survey!	2/13/2013 6:29 AM

#	Responses	Date
14	There has got to be services that can be combined. Im sure you have looked at doing this. Combine ome of the P&R services. With where technology is heading, are we going to need a library? Some of the services offered through the library can be offered throughP7R and vise versa. These streets are horible and we, the tax payers, drive on these daily, and they have IGNORED for far to long! STOP spending our money on "downtown" and say YES to the Coal How much tax Money will be made from just the building of Millennium, let alone the monthle/yearly tax contribution. Longview's future is Now!!!	2/12/2013 5:14 PM
15	I think quality of life in our community is very important if we are to attract new business and new residents. All of these areas are important components of quality of life.	2/12/2013 3:26 PM
16	These items are generally interdependent, undermining the meaningfulness of forced-choice answers. Council needs to find the intestinal fortitude to increase revenues, or our town will not attract the growth we need.	2/12/2013 2:40 PM
17	The Fire Department is over funded. You need to look into it and a complete audit and publication of how they spend our money. Why do they need to be first responders with a huge fire engine?? Quality of life issues are very important and need to be fully funded. Funding Library and parks will abate some level of need of crimefighting and firefighting.	2/11/2013 4:24 PM
18	Summer Concerts, fun but not crucial. Poice,fire, library - crucial, as Mr. Long intended.	2/11/2013 3:05 PM
19	The unpaved alley behind my home is torn up by trash pickup trucks more than any other vehicle so that the gravel does not stay in place. It needs to be paved.	2/11/2013 2:13 PM
20	Combine more services like police and fire with Kelso - save money!	2/10/2013 7:26 PM
21	The streets department is out of control. They see every intersection as a potential roundabout. Police and fire should be top priorities, and transit should have made the list as well. Sanitation needs to recycle more items instead of "penalizing" for them. As for economic development, I haven't seen much good come from that.	2/10/2013 5:33 PM
22	Longview should be recast as a destination town to attract a higher level of business and economic development. We should be a educational and scenic community accessible to those who work in Vancouver and Portland. Fast speed rail to Longview should be promoted. We use the library, and the parks for exercise. We retired here and would like to live the last 30 years here but the coal and trains will be a deal breaker.	2/10/2013 4:02 PM
23	If you want safety, education, economic growth and a quality of life in your town you must have it look like it is flourishing. Promote the good "bones" of this town, the heritage and than build through brains not brawn. You have a college expanding, if you bring in dirty coal we will leave. There is a defeatist attitude developing and it is sad. Medical institutions undercutting one another rather than working together for the benefit of clients. Schools worried about infrastructure rather than a quality curriculum. We love Longview , the lake and parks, even the river we can't get too. The school, the convenience as we age and the livability. We traveled the country and we chose to buy here and live the last third of our life here. You have tough choices but if you bring more trains and coal	2/10/2013 3:22 PM
24	I'm very concerned about the state of disrepair of many of the streets in Longview. Our street is so bad, that it knocks our car out of alignment. Why aren't the streets and dangerous sidewalks being repaired. Also, the traffic lights are terribly timed. The left turn lane on Ocean Beach Ave. at both 30th and 32nd only allow 2 cars to turn before turning red. People run the light all the time since if they don't, they will have to wait for a lengthy cycle to have a chance for 2 more cars to turn. This is one of the worst light areas in Longview.	2/10/2013 12:25 PM
25	I'd like to see the council step up and do their job, which is to represent us & make decisions without having to take every issue back to the people. As it is now, we might as well have a town council form of government.	2/9/2013 2:11 PM
26	Why are there no bike lanes in this town? sidewalks? that is not the answer. Also, Instead of gravel around the lake, lay some asphalt and not worry about graveling the lake every year. That way, bike riders, skaters and baby strollers can use the lake, not just the walker and joggers.	2/8/2013 11:28 PM
27	The walking path at the lake needs MORE gravel and maintence and less travel by parks trucks. It is pretty obvious the people interviewed in the newspaper don't walk the path!!	2/8/2013 12:28 PM
28	Is there a real need to use a \$300.000 dollar fire truck to answer most every emergency call? Why do you ask for public money to help finance a downtown effort in a beautification project, when is should be up to the store owners to foot the bill except maybe sidewalk and trees and ect. Why do we need spend tax payer money for slum lords in the residential areas clean up thier properties, they should comply or risk being. foreclosed We need to use the street maintance of cleaning up leaves and brush	2/8/2013 11:28 AM

#	Responses	Date
29	I believe it is totally unfair to 'rank on a scale' there services available. Any eliminated would be a loss. And I thought the previous questions about increasing or decreasing the revenue were also inappropriate. But thank you for the opportunity to participate.	2/8/2013 10:29 AM
30	allow cruising, at least the kids are in a visible area. at least on certain predetermined streets. and the money they spend on gas and other consumable goods cant hurt the business	2/8/2013 8:09 AM
31	Please fix the main roads in town like 15th, and the center divider going onto Lewis and Clark bridge the curb there needs reflective material on it for drivers at night it is dark there and can't see the curb thank you for this opporotunity	2/7/2013 10:13 PM
32	Fix Corman road. Potholes, crumbling asphalt, and drainage problems are ridiculous. Drivers have to veer off the road into the neighboring yards to avoid pedestrians and damaging their cars. Rumor has it that the road was annexed into the city in "as is" condition. Which means that it somehow doesn't have to be maintained? Then why do residents pay storm sewer tax, but drive through a storm filled lake that forms right on top of a sewer grate? Where do the storm tax dollars go? Just fix it already.	2/7/2013 7:44 PM
33	Please consider traffic lights a major issue for Longview. Although we've been told "engineers" have synchronized the lights in town, it's a joke. Lights throughout town continue to stop traffic on major arterials to permit cars to make free right turns from secondary roads. Frustrating. Ocean Beach Hwy. has a litany of red lights that force drivers to continually jam on brakes. I'd like to box Mr. Bean's ears for screwing up our light system so badly. I know he's been gone for years, but he set up this mess and it continues to deteriorate. Very frustrating. The dysfunctional light system in our town is the proverbial elephant in the living room which city personnel don't see or pretend to ignore.	2/7/2013 7:40 PM
34	I think there is another choice when it comes to revenue. There seems to be opportunities to save money through increased productivity, ie Manage Better. There are lots of city trucks running around town with more than one person in it.	2/7/2013 7:07 PM
35	city of Longview spends too much money hiring consultants. Think it out yourself and then take responsibility. Quit hiring consultants to take the responsibility. The red light cameras were a money wasting flasco. The money generated went out of townand you wonder why people get mad at government! No doubt someone went to a 'conference' about the red light cameras at a destination vacation resort.	2/7/2013 4:43 PM
36	We need to reduce expenditures from non essential programs to fund those that are essential (police fire streets) fully	2/7/2013 4:26 PM
37	Why is Corman Road not a developed city street ?	2/7/2013 4:25 PM
38	We need to improve the timing of the traffic lights on the arterial streets.	2/7/2013 3:40 PM

#	Responses	Date
39	All of your questions state " would you be interested in increasing revenue to maintain existintg level of service'. My answer is NO. I would be interested in increasing revenue to increase the service. So much of the services funds are misused. If they were used appropriately I would have no issues in increasing the amount I pay, but they are not used appropriately. For example-the bridge on WA Way needs replaced but yet \$2 Million was spent to put in a walking path in the highlands near an industrial site. First of all, the residents of the highlands have the lake to utilize like the rest of the community. Is a walking path going to be built in every neighborhood? Not likely, The bridge is a main arterty for the community that is a safety concern. As well as the hundreds of thousands that have been spent trying to save/beautify 'downtown' but yet have left other areas in the community lacking funding/attention. The entry at the Y is filthy, dirty and not an inviting welcome to Longview. The money could have been spent to clean that up instead of placing glass sculptures on Commece that were wandalized and destroyed within weeks. Start forcing property owners to clean up their property or start fining them. This includes commercial properties. A coat of paint, or a good pressure washing does wonders for the eyes and doens't cost too much. Start making those who receive all kinds of subidies and social services that are physcial able to do so, contribute back to the community. Garbage detail, library duty, etc. Don't let them continue to get something for nothing-have them contribute back to those who are paying their way. Implement a DEQ for all vehicles and start getting the junker cars lined up bumper to bumper. Allow homeowners to remove/prune city trees along parking strips if they desire-why should taxpayers fund it if the homeowner is willing to sign an agreement to maintain the tree themselves? Stop allowing homeowners to rake all of the leaves from their yard into the street causing large drifts of lea	2/7/2013 2:31 PM
40	Library needs to join a regional library system to provide better services to our city. Economic development needs to focus on small businesses rather than hoping for big employers	2/7/2013 2:23 PM
41	Educated and affluent professionals are fleeing longview with their resources and volunteer energies because of poor schooling options. Further gut library and parks and those trying to stay and help put things back together will give up and leave. No nuisance abatement and again, folks will quit trying and more and more will leave or more will commut in from Vancouver and Portland.	2/7/2013 1:22 PM
42	Enough with the major road re-creations. Circle re-creation was a huge waste of money. Now you wanna do a round-about on washington way. NO! How about the sidewalk going up and down Columbia Heights first! Clean up the town of ugliness and drugs first!!!! Give more breaks to locally owned small business! If we see actual effort in the city then you will get more people involved and volunteers will come! STOP SPENDING MONEY ON CRAP THAT DOESNT REALLY MATTER!! Thanks	2/7/2013 1:17 PM
43	have you heard of Lady Bugs you could have and still can buy a million of them to eat aphid instead of cutting down all of those trees. Cutting down trees is not a good idea they are what makes Longview beatuful and a special place to live.	2/7/2013 12:44 PM
44	Something needs to be done to remove transients from the streets. They discourage people from shopping at nearby businesses, increase drug crimes and make the city less safe for children and people in general. This needs to be provided either through the community house or other institution to develop a program to remove transients from the streets and reintroduce them to society.	2/7/2013 12:13 PM
45	Public safety (Police & Fire) should always be at the top. So should the quality of life for our citizens - please keep Parks & Recreation programs & Library at the top of your agenda as well. Our families & community members need these programs to keep the sense of community & to draw tourism to the area. The quality after school programs offered by the city for our youth & teens will in return reduce the number of police you will need in the future.	2/7/2013 11:56 AM
46	Street lights need to be on for all of Ocean Beach Hwy at night. Citizens deserve covered bus stops/shelters. Police should monitor driving speeds on O.B. Hwy past 38th Ave, especially where drivers often exceed 50 mph.	2/7/2013 11:49 AM
47	Make the Welfare People clean up the parks and clean the bathrooms for their checks. They can also work at the library for a couple of hours a week and clean the Streets and parking lots for a couple of hours a week. GET THEM OFF OF THEIR BUTTS.	2/7/2013 11:39 AM

#	Responses	Date
48	Streets need repaving. When visitors enter, they notice the poor quality of driving around town due to the scabby repairing at major intersections.	2/7/2013 10:18 AM
49	I filled this out the best I couldI live outside the city limits and so am not privy to many of the services listed.	2/7/2013 10:14 AM
50	Revenue is tight. Public safty is important, however, for every dollar we spend on prevention and intervention saves seven dollars in police, judicial, and incarceration.	2/7/2013 9:48 AM
51	Very very general type questions The devil is in the details.	2/7/2013 8:59 AM
52	When I chose "not important," it was in the context of a lean budget cycle. Those programs are nice, but I think we could do without them until the economy improves.	2/7/2013 8:54 AM
53	I think Parks and Rec needs to vary their classes. I've noticed that they offer the same things every season. They should change it up a little bit. The library has many great services, but I think they need to charge to use the computers and to rent DVD's. They also need to look at things like their magazine subscriptions to identify if they can take away any of them. There seems to be no economic development. No one new has moved into downtown or the industrial park.	2/7/2013 8:10 AM
54	yes,yougetenoughmoney.quitspendingitonwagesandbenbfits.	2/7/2013 4:09 AM
55	Give up on any downtown projects. Thriving downtown is never coming back. People will go to strip malls like Triangle area. Downtown has ahomeless problem and I would not want any of my kids down there at all during nightime hours. Best if you just bought out property owners and leveled it and hope that some outfit would develop it. I know this seems impossible but revitalization of downtown in the past ten years has been a failure and you havespent enough money on so called experts to what avail. On your questions about utilities, the only one that is good and at a fair rate is Waste+Recycling. You have charged exorbitant rates for years now on Water+Sewerand I doubt that that will ever come down even though we were promised that with startup of Mint Valley water plant. On the econo,my, you need to bring real family wage jobs to city and give them tax break if that is what it takes. Millenium coal will not create any manufacturing jobs and will probably have about 20to30 employees when all is said and done. Of course, the ILWU will get fat on this deal but the citizens will have to put up with coal dust and constant and loud parade of trains going day+night into Longview. We need manufacturing jobs for this community to strive and II think you should hire someone who has experience with these types of employers to do the job. Whoever does it now is certainly not getting the job done.	2/7/2013 2:29 AM
56	In spite of your need for funds, you need to be cautious that you do not harm the finances of the low income, elderly and disabled. People with low incomes can not afford the increases that happen.	2/7/2013 12:53 AM
57	the Light pole on the comer of 32nd and Michigan has been out for about 2 months. the night of the accident I talked to a worker. They would look into the matter. and have some one fix the light because the intersection is very important and needs the light fixed.	2/6/2013 11:49 PM
58	Why not have a survey that asks how satisfied we are with each department. And if we have a specific complaint and or complement.	2/6/2013 11:31 PM
59	Need yard waste and organics recycling. Need lower sewer fees. Need to fix potholes, reduce number of traffic lights, and add bike lanes.	2/6/2013 10:02 PM
60	66 questions is far too many. Write a more focused survey in order to get better response rates.	2/6/2013 9:25 PM
61	We has a community really do need and require the use of the Library.	2/6/2013 9:07 PM
62	All bill payments to the city should be online or through a kiosk at city hall. We should not be employing people to perform this behind a counter.	2/6/2013 9:01 PM
63	There are many damaged street light poles scattered around Longview, some which have been in this state for several years now. These should be addressed especially since they are in areas where lights are turned off.	2/6/2013 7:42 PM
64	Given choice of reducing funding or increasing?! What happened to maintaining funding as is?	2/6/2013 7:37 PM
65	Longview is a hub for many, many non-residents. I truly feel that a Use Tax could be successful in yielding funds needed without compromising the quality of life in this city.	2/6/2013 2:27 PM
66	Though economic development is a critical piece for quality of place, we pay the CEDC for this service. The Port also works toward this goal. It seems, we have a scattered approach.	2/6/2013 2:19 PM
67	Stop hiring third party consultants to do studies. Form a Volunteer team to analyze issues.	2/6/2013 2:19 PM

#	Responses	Date
68	This community looks and feels very trashy, beginning with the yard waste dumped on hillsides all the way through to the recycling program taking only #1 and #2 plastics (thereby increasing the landfill leading into town). A dirty, filthy, polluting coal terminal would bring more problems than solutions to this economy and I say "Keep coal out!"	2/6/2013 1:33 PM
69	Should have included the Humane So services.	2/6/2013 11:47 AM
70	Garbage shouldn't have to be picked up every week unless you have a multiplex place; reduce to save. Fire, Ambulance, and police should only come out when it requires to their main function unless one of the departments are overwhelmed at that particular moment. Park and Recreation for adults should be a profit situation that can then go to assist in the youth programs. Our economy is important but realization of marketing ability needs to be taken into account; the protection of reduction in taxes for business or ease of transportingwe need things that will make people want to be here.	2/5/2013 8:11 PM
71	Not at this time.	2/5/2013 3:23 PM
